Features OS X Lion includes a host of new features that are designed to make your Mac faster, more stable and easier to use. Notification Center The Notification Center is a single place to view your notifications. The center automatically lists recent alerts and reminders, allowing you to quickly and easily view alerts for a specific app, your email, messages, calendar and more. You can also view and dismiss alerts, and even add new alerts from any application. Game Center OS X Lion includes a new Game Center that makes it easier than ever to play games. Game Center is where you can connect with friends and compete against them, try out new games, track achievements, view leaderboards and get notifications about your friends' achievements and activity. You can also use Game Center to connect to the OpenFeint and Facebook game communities. New Maps App With new features such as Flyover, a 3D map that uses time-lapse photography to show where you've been, Map Sharing that makes it easier to create shared directions, turn-by-turn directions and Map Controls that let you zoom, search, and see traffic information, and with a major overhaul of the way you view map data, the new Maps app makes it

easier than ever to navigate and find places you need to go. QuickTime X QuickTime X features an improved interface, stability, accessibility, performance, and an improved 82157476af
